MISSION INTELLIGENCE / 03

# THE 13-WEEK CAMPAIGN

Understand what matters early, what pays all season, and what disappears at the end.

01

## EARLY ADVANTAGE

**Weeks 1–4**

Unlock greenhouses and lab resistance; earn higher dinosaur rewards sooner.

02

## ALLIANCE CONTROL

**Throughout season**

Claim cities, defend Alliance Center I, fight for Trade Hubs and war points.

03

## FINISH THE SEASON

**Final stretch**

Complete long-term hero goals, claim rewards and prepare for reset.

## THE NUMBERS THAT SHAPE THIS WAR

| 91 | +30% | 70 | 3 |
|---|---|---|---|
| DAYS | ATK | CAP | CENTERS |
| season length | max Lv.30 hatch | specialization | per alliance |

## RULE OF THE SEASON

The Biotech Lab determines which dinosaur levels you can hunt. Getting behind on resistance often compounds into less farming income.

CAMPAIGN TIMELINE / 04

# THE 13-WEEK ROADMAP

One season. Four distinct phases. Priorities change as the map opens.

## THE FIRST TWO WEEKS COMPOUND

**01** — WEEKS 01–02

### START THE ENGINE

Greenhouses. Biotech Lab. Support talents. All three Alliance Centers. Save Diamonds. Learn Hub capture.

**02** — WEEKS 03–07

### SCALE YOUR POWER

Climb dinosaur levels, complete Hatch tasks, establish city income and develop the best season hero.

**03** — WEEKS 08–10

### CONTROL THE WAR

Coordinate Trade Hub ownership, defend valuable cities, time upgrades with VS, prepare for Volcano War.

**04** — WEEKS 11–13

### CLOSE STRONG

Fight for season ranking, finish Fossil milestones, take war points, claim all rewards before reset.

EARLY GAME / 05

# FIRST 72 HOURS

The launch sequence that keeps POW 713 ahead of the curve.

## 01 BUILD GREENHOUSES

Build each available greenhouse immediately. Starter tasks show two first; aim for four as they unlock.

## 02 RUSH VIRUS RESISTANCE

Send Cretaceous Scales to the Biotech Lab, then hunt higher dinos for better rewards.

## 03 CHOOSE SUPPORT

Open with Support Specialization for build speed, extra hunting resources and resistance.

## 04 PLACE ALLIANCE CENTERS

Leader / R4 place all three early. Center I must stay defensible.

## 05 DELAY COMBAT BUILDINGS

Do not starve the lab to rush Command Center, Armory or Fortification.

## 06 BANK DIAMONDS

Save Diamonds for Trade Hub shopping. Coordinate scarce purchases.

ONE-TIME WARNING

## BEFORE YOUR FIRST VELOCIRAPTOR KILL

A seven-day first-kill leaderboard may rank the LEVEL of that first kill. Check the live rewards and event rules before spending your one opportunity.

# THE FIRST-KILL TRAP

The opening dinosaur leaderboard may lock your score on a single action.

## ONE FIRST KILL. ONE SHOT AT THAT RANK.

### CHECK BEFORE ATTACKING

A seven-day first-Velociraptor leaderboard is described in community rules. It ranks the level of that first kill, with time as a tie-breaker.

### DO NOT FREEZE YOUR FARM

Chasing this prize can conflict with early resource growth. Check whether the prize actually beats the lost farming income.

### COMMAND DECISION

If State 713 shows this event, officers should post the actual leaderboard rules and recommend a target. Otherwise, keep the Biotech Lab economy moving.

SUPPLY LINES / 07

# THE SEASON ECONOMY

Four resource streams; one upgrade bottleneck. Stop spending against your own progress.

01

## FERN LEAVES

FROM Greenhouses

USE Season building currency

Production is passive. Build and upgrade income sources early.

02

## CRETACEOUS SCALES

FROM Dinosaur hunts

USE Biotech Lab + upgrades

Main bottleneck. Resistance increases access to better prey.

03

## ANCIENT DINO EGGS

FROM Stego, Predator Squads

USE Weekend Bio Institute Shop

Stockpile all week. Spend on equipment, milestones and hero progress.

04

## PINE CONES + PET FEED

FROM Squads, Hatch tasks

USE Hatch of Legends growth

Feed every day. Pine Cones and Pet Feed use separate contributions.

**PRIORITY: MORE RESISTANCE  BETTER DINOS  MORE SCALES**

Do not let a short-term troop stat upgrade break this compounding resource loop.

# BUILDINGS: WHAT TO RUSH

Income and resistance are the opener. Combat buildings are the follow-up.

## HUNT CEILING BEFORE TROOP STATS

**01 BIOTECH LAB**

Unlock stronger dinos with Virus Resistance. Feed it Scales and build resources first.

**02 BIO GREENHOUSES**

Build every plot as unlocked. Upgrade reliable Fern Leaf production.

**03 ALLIANCE CENTERS x3**

Leader/R4 place early for season construction and territory. Defend Center I.

**04 COMMAND CENTER**

Season damage upgrade after the Lab and Greenhouses stop lagging.

**05 ARMORY + FORTIFICATION**

Develop attack and defense together after the economic opening.

PERSONAL ORDERS / 09

# YOUR DAILY FIELD ROUTINE

Daily free rewards beat expensive catch-up spending. Make this automatic.

01

## HUNT STEGOSAURUS

Stego and Raptors share rewarded attempts. Spend them on Stego first for Eggs plus Scales.

02

## PUSH DINO LEVEL

Use the highest hunt level your virus resistance supports; rally when needed.

03

## CLEAR PREDATOR SQUADS

Use your daily reward cap. Sunday Dino Rescue can increase the reward limit.

04

## COMPLETE ALL 5 HATCH TASKS

Feed is earned every day. Missed task rewards do not roll over.

05

## COLLECT GLORY CHESTS

Plan around three collection windows, roughly every eight hours.

06

## SAVE FOR DUEL DAYS

Hold fragments, upgrades and speedups until the matching Alliance Duel theme.

**30 15**

Bones & Eggs Boom may halve rewarded attempts while doubling per-kill rewards. Confirm on your server.

FIELD INTEL

HUNTER DOCTRINE / 10

# DINOSAUR HUNTING

The daily attempt limit is an economic decision, not just a kill counter.

## STEGOSAURUS FIRST

### THEN SPEND LEFTOVER FUEL

### CHECK THE LIMIT

Stegosaurus and Raptors share the daily rewarded-hunt limit. Check your remaining attempts.

### MAX OUT VALUE

Eggs make Stegosaurus attractive early. Use the highest profitable level you can handle.

### RALLY FOR ACCESS

If solo power is insufficient, coordinate rallies before wasting time or injury recovery.

### RECYCLE SCALES

Feed earned Scales into the Lab and reassess your new Virus Resistance ceiling.

OPERATIONS CLOCK / 11

# THE WEEKLY BATTLE RHYTHM

Season events and Alliance Duel run together. Use one action to collect multiple rewards.

| DAY | SEASON FOCUS | ALLIANCE DUEL | ACTION |
|---|---|---|---|
| MON | TRADE HUBS • RIVAL PICK | Vehicle upgrades | Save wrenches + blueprints |
| TUE | GLORY WAR / BATTLE OF HONOR | Buildings | Use construction speedups |
| WED | TRADE HUBS | Research | Use badges + research speedups |
| THU | FARM + BUILD | Hero development | Use hero fragments + skills |
| FRI | TRADE HUBS | Troop training | Use training speedups |
| SAT | BIO INSTITUTE SHOP | Enemy Buster | Prepare combat + spend Eggs |
| SUN | ANCIENT DINO • DINO RESCUE | Alliance focus | Be ready by 11:55 AT |

## DOUBLE-DIP WINDOWS (AT)

08:00–12:00 and 20:00–00:00 Apocalypse Time on matching days. Check the current Full Preparedness theme before spending.

FIELD INTEL

SCORING DISCIPLINE / 12

# DOUBLE-DIP YOUR UPGRADES

Save the action, not the reward. Match the same upgrade to multiple score windows.

**08:00–12:00 AT** **20:00–00:00 AT**

CHECK THE ACTIVE FULL PREPAREDNESS THEME

MON

## VEHICLES

Wrenches + blueprints

TUE

## CONSTRUCTION

Building and construction speedups

WED

## RESEARCH

Research, tech and badges

THU

## HEROES

Fragments, skills and gear

FRI

## TROOPS

Training and troop growth

SAT

## ENEMY BUSTER

Combat preparations, alliance targets

These are community scheduling patterns. Your current Alliance Duel and Full Preparedness clocks are the authority.

TIME INTELLIGENCE / 13

# DON'T MISS THE SPAWN

Apocalypse Time stays fixed at UTC−2. Alberta has permanent ABT (UTC−6) from November 1, 2026.

| | |
|---|---|
| **11:00 AT** | **07:00 ABT** |
| TRADE HUBS | Mon • Wed • Fri |
| **11:55 AT** | **07:55 ABT** |
| BE ONLINE | Sunday boss staging |
| **12:00 AT** | **08:00 ABT** |
| ANCIENT DINO | Sunday spawn |
| **08:00 AT** | **04:00 ABT** |
| FULL PREP | AM double-dip window |
| **20:00 AT** | **16:00 ABT** |
| FULL PREP | PM double-dip window |

## TRUST YOUR IN-GAME COUNTDOWN

ABT remains UTC−6 year-round. Other provinces and countries may use seasonal clock changes. Confirm the event card on State 713.

FIELD INTEL

CONTESTED OBJECTIVES / 14

# TRADE HUB TAKEOVER

A Hub is a single-owner capture, not a shared alliance progress bar.

## OWNER CAPTURES
## ALLIANCE PROTECTS

### 1 SELECT THE OWNER

One named player captures each Hub; allied capture progress does not combine.

### 2 SECURE THE FOOTPRINT

About 15 minutes outside the Hub, 10 inside; the inside HQ can be attacked.

### 3 STOCK + SHOP FIRST

Owner stocks the shop. Alliance members get early access and a reported 20% discount.

### 4 OPEN SHOP TO OTHERS

Other-state sales can generate 10% Diamond-tax red packets for distribution.

### LOCAL-RULE WARNING

Purchase limits (such as 10 per day) were checked on one server. Verify your own shop limits, reset time and event timer.

DIAMOND ECONOMY / 15

# THE TRADE HUB SHOP

Winning the capture is step one. The shop is how POW converts control into power.

## CAPTURE • STOCK • SHOP • OPEN

### 01 ALLIANCE ACCESS

The Owner stocks the shop. Coordinate limited items before releasing access.

### 02 REPORTED DISCOUNT

A 20% alliance-member discount is documented by multiple player guides.

### 03 OUTSIDE BUYERS

Opening to other states can generate a 10% Diamond tax paid as red packets.

### 04 LIMITS CHANGE

One state reported 10 daily purchases and one per item type. Verify State 713.

**RULE: DO NOT LEAVE A CAPTURED SHOP UNUSED.**

FIELD INTEL

SUNDAY WORLD BOSS / 16

# ANCIENT DINO

Show up before the five-to-fifteen-minute damage race is over.

## 12:00 AT
## 08:00 ALBERTA TIME

### UNLIMITED ATTACKS

Rank rewards depend on your total damage. Keep attacking; heal between phases.

### FOSSILS: TOP 200

Fossils feed the album. Be online by 11:55 AT and choose your strongest burst formation.

### FIRST-SPECIES TITLES

Top-three titles may be available only on the first server kill of each species.

### DO NOT WASTE A TELEPORT

Guides disagree about remote attacks versus marching to the boss. Confirm the live event interface before relocating your HQ.

BOSS INTELLIGENCE / 17

# FIVE BEASTS. FIVE SUNDAYS.

The Ancient Dino rotation repeats. Missing a species can delay its fossil track.

## ROTATION / REPEAT EVERY FIVE WEEKS

| | | |
|---|---|---|
| 01 | T-REX | First boss |
| 02 | TRICERATOPS | Horn week |
| 03 | PTEROSAUR | Flying week |
| 04 | ANKYLOSAURUS | Armoured week |
| 05 | DIMETRODON | Final rotation |

CHECK THE FIRST-KILL TITLE AND TOTAL-DAMAGE RANKING RULES.

FIELD INTEL

ALLIANCE WAR / 18

# CLASH FOR GLORY

This is not a casual skirmish. One unprotected Center I can end the war.

## DEFEND ALLIANCE CENTER I

**20%**

**SEASON POINTS**

A win is reported to transfer 20% of the loser's points.

**AC I**

**FAIL CONDITION**

If Alliance Center I falls, the alliance loses instantly.

**150K+**

**CONTRIBUTION**

Threshold relates to specific ranking rewards; not every war reward.

## THE R4 COMMAND PLAN

01 Choose a realistic rival and set Truce Settings.
02 Garrison Center I BEFORE the war begins.
03 Assign rally leaders, reinforcement squads and building targets.
04 During Points Rush, check whether the loot rate rises to 25%.

FIELD INTEL

CLASH OPERATIONS / 19

# WIN THE WAR BEFORE IT STARTS

Named roles and garrison discipline matter more than spontaneous heroics.

## ALLIANCE CENTER I = THE ANCHOR

**01** **RIVAL SELECTION** — Choose a rival we can actually beat; confirm window and Truce Settings.

**02** **CENTER I GARRISON** — Place and protect Center I before war. Confirm who will cover reinforcements.

**03** **RALLY CAPTAINS** — Assign attack formation leaders, targets, fillers and a fallback target.

**04** **AFTER-ACTION REVIEW** — Track building losses, point results, roster participation and next-week fixes.

POINTS RUSH MODIFIERS: CONFIRM IN THE LIVE RULES.

FIELD INTEL

STATE WARFARE / 20

# VOLCANO WAR

Camp Points win the match. Personal damage rankings do not.

## CONTROL THE CORE. HOLD THE LINES.

### VOLCANO CORE
**150 / sec**
Main control point

### ENERGY TOWER
**80 / sec**
Camp-points bonus

### LAVA FURNACE
**80 / sec**
Damage boost

### RADIATION WAREHOUSE
**80 / sec**
Destruction boost

### LAVA POOL
**60 / sec**
Support location

Officer assignment: which buildings, who reinforces, when to rotate. Scoring values and event availability must be checked on State 713.

STATE CONFLICT / 21

# VOLCANO OFFICER PLAYBOOK

The objective is Camp Points. Assign structures, rotations and backups before the clock starts.

## CAPTURE. REINFORCE. HOLD.

### 01 BEFORE BATTLE

Confirm mode, allies, invited members and spoils. Pick each structure lead and backup.

### 02 FIRST PUSH

Prioritise valuable structures. Coordinate arrivals; do not split your best formations.

### 03 HOLD THE SCORE

Reinforce key structures and rotate damaged squads. Camp income wins the match.

### STATE 713: POST LIVE ASSIGNMENTS

Structure availability, exact scoring, match mode and battle start may vary. Officers should publish a current screenshot and call the lineup.

TERRITORY COMMAND / 22

# CITY CONTROL + OFFICERS

The alliance earns points by holding territory. Leadership turns that into a repeatable plan.

## TERRITORY SCHEMATIC / NOT A LIVE MAP

## CAPTURE WHAT WE CAN HOLD

City Points accumulate while owned. Already-earned points remain banked after losing the city.

## MAP THE RISK

Start with available targets that can be defended. Avoid costly fights with no real gain.

## DIPLOMACY BEFORE WAR

Coordinate target cities with other alliances and state leaders to prevent conflicts.

## OFFICERS: LEADER / R4 OWN THE PLAN

Assign a Trade Hub Owner, territory lead, war captain, Volcano War captain, diplomacy lead, Egg Defense lead, and reward distributor.

TERRITORY STRATEGY / 23

# CITY INCOME IS THE GAME

City ownership contributes over time. A sustainable hold often beats a costly trophy fight.

## CLAIM WHAT WE CAN DEFEND

### EARNED POINTS STAY

City points already earned reportedly remain even if ownership changes.

### DIPLOMACY FIRST

Talk to allied leadership before targeting border cities or shared objectives.

### MATCH THE ROSTER

Pick city targets based on attendance, attack power and available reinforcement.

### RECHECK THE MAP

Higher-tier city unlocks and territory rules differ by server stage.

ALLIANCE SURVIVAL / 24

# RESCUE + EGG DEFENSE

Two different events. Both reward coordinated participation and timely reinforcement.

## SUNDAY: RESCUE / OFFICER-CALLED: DEFENSE

### DINO RESCUE

Predator Squad reward attempts can rise from 2 to 5 on Sunday.

Squads and Guardians can harm HQ durability directly.

Rally the Black Market Guardian to raise state-wide thresholds.

Scout-heal the rescued Spinosaurus for up to 10 gifts.

### DINO EGG DEFENSE

Leader / R4 initiate alliance-wide attack waves.

Reinforce the right HQs and defend together.

One breach may take 5% of Eggs, capped at 1,000; confirm locally.

A 900M wall-defense benchmark came from ONE server, not a universal rule.

**THE EVENT CARD IS THE AUTHORITY FOR WAVE COUNT AND REWARDS.**

FIELD INTEL

SUNDAY CO-OP / 25

# DINO RESCUE

Daily squads are not the whole event. State-wide Guardian progress rewards everyone.

## FREE RESOURCES. SHARED GOALS.

### 01 PREDATOR SQUADS

A Sunday reward cap can increase from two to five. Focus on useful higher-tier rewards.

### 02 BLACK MARKET GUARDIANS

Guardian rally kills contribute to rescue tasks and possible state-wide thresholds.

### 03 PROTECT THE HQ

Some attacks bypass HQ guards and reduce durability. Respond when danger appears.

### 04 HEAL THE SPINOSAURUS

Send scouts after the rescue; up to ten gift opportunities are described in player rules.

**THE LIVE EVENT TASK COUNTER OVERRIDES GENERAL GUIDE NUMBERS.**

FIELD INTEL

ALLIANCE DEFENCE / 26

# DINO EGG DEFENSE

This is a full-roster siege. Defend the egg stockpile with assigned reinforcements.

## COORDINATION BEATS RANKING

### LEADER / R4

Launch the event when defenders are online. Publish the wave count shown in your game.

### STRONG HQS

Position reserves to reinforce high-value HQs. Do not abandon weaker members.

### EGG EXPOSURE

Some guides report 5% lost on a breach, capped at 1,000 Eggs. Check your event rules.

### REWARD MILESTONES

Avoid promising round 23 or a 900M wall defense as universal requirements.

**THE WAVE COUNTER AND REWARDS SCREEN ARE FINAL AUTHORITY.**

FIELD INTEL

PERMANENT VS TEMPORARY / 27

# HATCH + FOSSIL ALBUM

Build free power now. Know which benefits vanish with the season.

## HATCH DAILY. NEVER MISS A FOSSIL ROTATION.

### HATCH OF LEGENDS

Choose one of three themed dinosaur looks: T-Rex, Triceratops or Ankylosaurus.

The companion can reach +30% Troop ATK at Level 30.

Pet Feed grows it; Pine Cones are contributed separately in groups of 100.

Complete all five daily Hatch tasks.

### FOSSIL ALBUM

The Album has multiple pages; the first alone holds 20 fossils. More pages unlock collection rewards.

Fossils, including duplicates, contribute album points.

Prioritize a missing piece when it completes a major milestone.

Do not miss the weekly species rotation.

### THE SEASON BONUS IS TEMPORARY

Hatch bonuses and its vehicle skin are reported to disappear at season end. Avoid confusing them with long-term hero investments.

FIELD INTEL

COMPANION SYSTEM / 28

# HATCH OF LEGENDS

A season-long, daily-growth system. The simplest way to lose value is to miss days.

## LV.30 / +30% TROOP ATK

Reported growth target; bonus ends after season.

### CHOOSE A DINOSAUR

Three themed species are presented as cosmetic alternatives with the same basic growth bonus.

### FIVE DAILY TASKS

Finish every task. Daily Pet Feed chances do not roll over.

### PINE CONES

Contribute Pine Cones through the Alliance Points route in increments of 100.

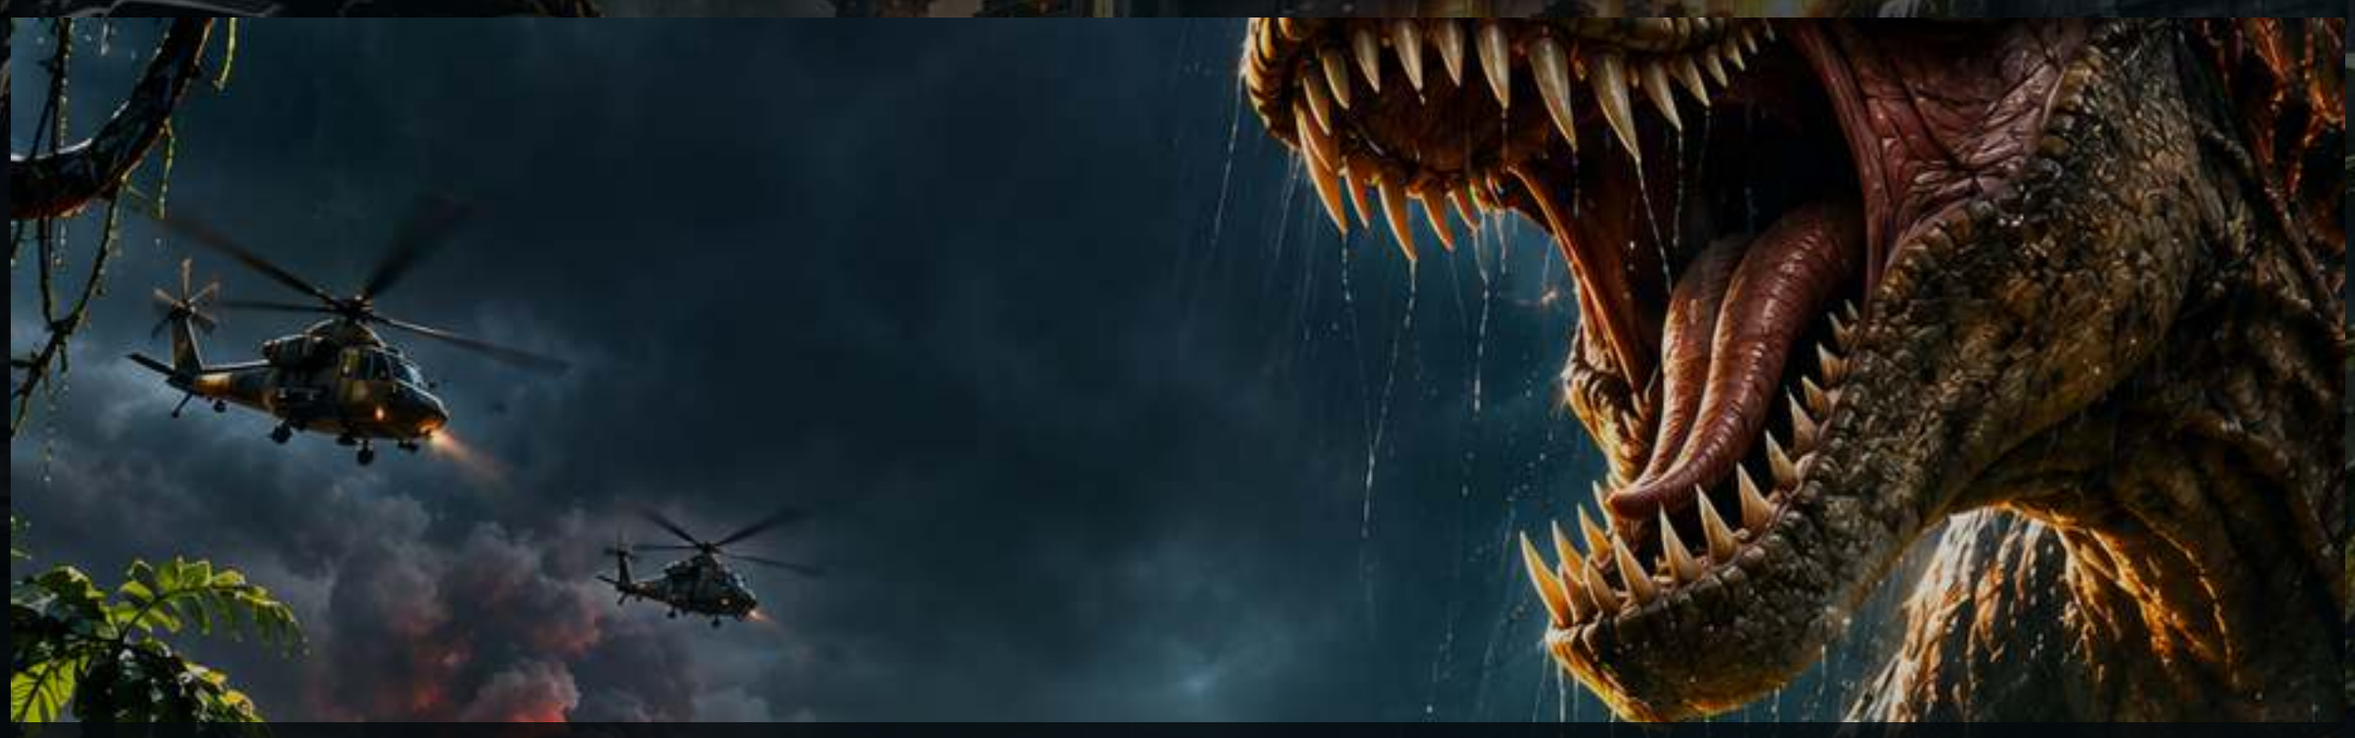

### GROWTH STAGES

Player guides describe hatching at 6, adult form at 11 and a vehicle skin around 16.

COLLECTION SYSTEM / 29

# THE FOSSIL ALBUM

Do not mistake the first page for the whole collection. Plan missing pieces and milestones.

## 11 ALBUM PAGES

First page alone holds 20 fossils (player-documented).

| | | |
|---|---|---|
| **30** START | **50** GROW | **100** BUILD |
| **180** 5K EGGS | **240** PUSH | **300** FINAL |

## COLLECT • EXCHANGE • COMPLETE

Sunday boss rewards and the weekend shop fill missing pieces. Duplicates can help the points track or Exchange. Guide screenshots show milestone rewards but local rules should be checked.

FIELD INTEL

WEEKEND MARKET / 30

# BIO INSTITUTE SHOP

Arrive with Eggs banked. Spend on lasting power, not random refreshes.

## 01

### EXCLUSIVE EQUIPMENT

Usually the hardest core progression pieces to acquire elsewhere.

## 02

### ORANGE HERO FRAGMENTS

Invest in your main long-term hero lineup rather than spreading purchases.

## 03

### HIGH-VALUE FOSSILS

A missing fossil completing an album milestone may be the best purchase.

## 04

### BADGES + OTHER GOODS

Buy selectively when they beat your other available opportunities.

## SHOP OPERATIONS

- Open Saturday + Sunday; shop uses Ancient Dino Eggs.
- Shop boards can show discounts up to 80%.
- About 14 refreshes per weekend were reported. Refresh cost rises.
- Scan the full board before refreshing; keep an Egg reserve.

# SPECIALIZATION + HEROES

Support accelerates the opening. Combat becomes stronger after your hunting ceiling is secure.

## SUPPORT FIRST

Early-game value: building speed, more hunting resources and virus resistance.

Economy-focused members can remain Support longer if it fits their playstyle.

## COMBAT LATER

Consider switching after Level 60 dinos feel comfortable.

Higher Combat tiers can add instant rally launch, mobility and extra Armory access.

## SEASON 3 HEROES // DIFFERENT FROM S4 HEROES

### LICIA

BLOOD ROSE

PAIRS WITH

**Bella**

all-rounder

### LILIANA

WINGS OF DAWN

PAIRS WITH

**Alma**

burst / boss

### DODOMEKI

GUARD OF ORDER

PAIRS WITH

**Harleyena**

sustained DPS

Yu Chan, Queenie and Amber are different heroes, not alternate names for Licia, Liliana and Dodomeki.

# LEVEL SWAP WITHOUT REGRET

Move development carefully. Hero quality and skill rules decide what transfers.

## LEVELS STARS SKILLS

### SAME QUALITY HEROES

Player rules describe exchanging hero levels and eligible matching skill investment between heroes of the same quality.

### DIFFERENT QUALITY HEROES

Guides report that only hero levels transfer between different qualities. Check exactly which skills remain.

### CHECK THE PREVIEW BEFORE CONFIRMING

Star ranks remain subject to their own rules. Do not sacrifice valuable progression because a short guide makes swapping sound risk-free.

OPTIONAL PURCHASES / 33

# SPEND SMART OR SPEND NOTHING

The best early gains are still available without buying a season bundle.

## NO PAID PACK IS REQUIRED TO PLAY WELL

### FREE

**BEST BASELINE**

Five Hatch tasks, dino rewards, Glory Chests, seasonal shop planning, correct Duel timing.

### $9.99

**WARTIME INVESTMENT**

Example USD price per tier. Some guides cite +100 resistance and a fifth Greenhouse.

### $24.99

**SEASON JOURNEY**

Example USD price. Some guides report doubled Glory Chest badges if bought early.

## CHECK YOUR STORE BEFORE SPENDING

Prices, regions, packs and bonuses can change. Choose the smallest purchase that solves a real bottleneck, or keep it free.

# RANKING + SEASON END

Your alliance ranking is a shared effort. Keep permanent progress separate from seasonal bonuses.

| FINAL RANK | ALLIANCE REWARD BRACKET |
|---|---|
| #1 | SUPREME LEGION |
| #2–3 | DAWN ARMY |
| #4–5 | GLORIOUS PIONEER |
| #6–10 | PROTECTION OATH |
| #11–20 | EXPEDITIONARY ALLIANCE |
| #21–50 | WASTELAND LEGION |
| #51+ | WASTELAND GUARDIAN |

## REMAINS

Heroes, developed levels and fragments are the main long-term progression systems. Confirm each item’s carryover rules.

## RESETS

Season buildings and many temporary buffs reset. The Hatch bonus and cosmetic are reported to expire.

FINAL WEEK / 35

# CLEAR YOUR REWARD CLAIMS

Temporary bonuses expire. Claim what you earned and verify what persists before the rollover.

## DON’T LEAVE POWER ON THE TABLE

| | | |
|---|---|---|
| 01 | CLAIM JOURNEY REWARDS | Confirm each visible stage and mailbox fallback before the season closes. |
| 02 | CHECK SEASON CURRENCY | Spend expiring currency on long-term value; verify rollover warnings in the store. |
| 03 | FINISH FOSSIL MILESTONES | Use exchanges or the weekend shop for reachable collection rewards. |
| 04 | VERIFY HERO INVESTMENTS | Permanent hero levels/fragments are generally long-term, unlike seasonal buildings. |
| 05 | DISTRIBUTE ALLIANCE REWARDS | Leadership should follow the final ranking rules and announce distribution. |
| 06 | RECORD STATE 713 RESULTS | Capture ranks, winning tactics, event exceptions and next-season lessons. |

POW 713 // LAST Z

FIELD INTEL

POW 713 COMMAND / 36

# THE ALLIANCE ORDERS

If members only read one tactical page, this is the one that matters every week.

## 01 BIO LAB FIRST

Push resistance and high-value dinosaur farming.

## 02 HUNT DAILY

Stego before Raptors; clear Predator Squads.

## 03 FIVE HATCH TASKS

Do them every day; collect Glory Chests.

## 04 SAVE DIAMONDS

Plan purchases around owned Trade Hubs.

## 05 DEFEND CENTER I

Garrison and protect it before Glory War.

## 06 SHOW UP EARLY

Ancient Dino Sunday 11:55 AT / 7:55 AM Alberta.

## 07 PLAY VS SMART

Spend speedups and upgrades on matching Duel days.

## 08 FOLLOW THE OFFICERS

Trade Hubs, city targets, war, Rescue, Volcano and Egg Defense.

**ONE FAMILY • ONE FIGHT • ONE LEGACY**

**POW 713 — STRONGER TOGETHER**

# READ BEFORE YOU RAID

A strong strategy guide also tells you which mechanics still need confirmation.

## VERIFIED TIME BASIS

Apocalypse Time is UTC−2. Alberta adopted permanent Alberta Time (UTC−6) on November 1, 2026.

## SOURCE MATERIAL

Built from the supplied POW 713 season briefing and community Last Z guides; not official game patch notes.

## CHECK IN-GAME

Exact Trade Hub shop limits, Egg Defense waves, server unlocks, boss marching and event schedules may differ.

## HERO NAMES

Season 3 Licia, Liliana and Dodomeki are not Season 4 Yu Chan, Queenie and Amber.

## PURCHASE PRICES

All USD prices are examples from public/community guides, not a guaranteed offer in your region.

## VISUALS

Original illustrative artwork generated for this briefing. This is independent fan-made alliance material.
