POW 713 · LAST Z: SURVIVAL SHOOTER · 13-WEEK SEASON

Season 3: Dinosaur Origin

Alliance briefing: every event, every priority, and how we get ahead

Season at a glance

91
days long (13 weeks), the longest season yet

+30%
Troop ATK from a max Lv.30 Hatch of Legends dino

Lv.70
new Specialization cap (was 50)

3
Alliance Centers per alliance; needed for every season building

THE CORE LOOP

Kill dinos → **Bank Scales** → **Upgrade Biotech Lab** → **Unlock higher dinos**

Your first week decides your last week. Every day the Lab is behind means lower dinos, fewer Scales, and an even slower Lab. That gap does not close on its own.

Know your four resources

Fern Leaves

FROM
Bio Greenhouses (passive)

USED FOR
Main currency for season buildings

Cretaceous Scales

FROM
Stegosaurus, Raptors, Predator Squads

USED FOR
Biotech Lab + buildings. THE bottleneck

Ancient Dino Eggs

FROM
Stegosaurus, Predator Squads, duplicate fossils

USED FOR
Bio Institute Shop (weekends)

Pine Cones + Pet Feed

FROM
Predator Squads, daily Hatch tasks

USED FOR
Raising your Hatch of Legends dino

Week 1: the non-negotiables

1. **Build all 4 Bio Greenhouses on day one**
   A greenhouse built on day 4 has lost 3 days of output forever.

2. **Pour everything into the Biotech Lab**
   Virus resistance sets the max dino level you can attack.

3. **Set Specialization to Support**
   Faster builds, more resources per kill, extra virus resistance.

4. **Leader + R4: place all 3 Alliance Centers**
   Only Leader/R4 can. It's a land grab, so go early.

5. **Hold off on Command Center, Armory, Fortification**
   Good buildings, not week-one buildings.

6. **Don't spend diamonds**
   Trade Hubs run on diamonds. Bank them.

Biggest early mistake: rushing troop-stat buildings. Low resistance locks you out of high dinos, no matter your power.

Building upgrade order

1	**Biotech Lab**	CRITICAL	Raises virus resistance = the max dino level you can hit. Ease off once Lv.60 dinos are comfortable.
2	**Bio Greenhouses**	CRITICAL	Passive Fern Leaves. 4 plots, 5th unlocks with Wartime Investment. Keep them upgraded.
3	**Alliance Centers ×3**	HIGH	Territory + Glory War. Required to place every season building.
4	**Command Center**	MEDIUM	Seasonal troop damage. Strong, but not urgent. Start once Lab + Greenhouses are stable.
5	**Armory ×2 + Fortification ×2**	MEDIUM	Troop ATK and DEF. Upgrade them together; all attack + no defense loses troops.

Daily routine: every day, no exceptions

- **Stegosaurus first,** Raptors with leftover fuel. Stego drops eggs, Raptors don't.
- **Hit the highest dino level** your virus resistance allows. The reward curve is steep.
- **Kill your Predator Squads.** Capped daily, never skip them.
- **Do all 5 Hatch of Legends tasks.** Missed days are gone for good.
- **Collect every Glory Chest.** Miss one and you lose a third of the day's badges.
- **Can't solo it? Join a rally.** Same glory as leading one.

30 → 15

reward attempts/day. Drops to 15 when Bones & Eggs Boom hits, but rewards double

3

Glory Chests a day (one every 8 hours)

2 / 5

Predator Squad kills (Mon–Sat / Sunday)

The weekly battle rhythm

Day	What's on	What we do
Monday	Trade Hubs 11:00 AT · Clash for Glory rival pick	Troops staged before 11:00. Leaders pick a rival we can beat
Tuesday	Glory War / Battle of Honor	All hands. Winning takes points from the enemy
Wednesday	Trade Hubs 11:00 AT	Same drill as Monday
Thursday	Farm + build day	Stockpile eggs and Scales for the weekend
Friday	Trade Hubs 11:00 AT	Same drill as Monday
Saturday	Bio Institute Shop opens	Spend eggs on priority items only
Sunday	**Ancient Dino 12:00 AT · Dino Rescue · Bio Shop**	**Biggest day. Online by 11:55 AT**

Also: Dino Egg Defense is started by Leader/R4 (we'll call it in chat). AT = Apocalypse Time; check the in-game timer.

Sunday: Ancient Dino world boss

12:00 AT

Dies in 5–15 minutes on an active server. Be parked near the spawn by 11:55.

WEEKLY ROTATION

- **Unlimited attacks,** ranked on total damage. Keep sending and healing.
- **Shield phase:** your troops aren't injured. Once it breaks, heal between waves.
- **Top 200 get fossils.** That's what fills the Fossil Album.
- **Titles:** top 3 only, and only on that species' FIRST kill on our server. Save buffs for those weeks.
- **Fire buffs right before spawn,** not 5 minutes early.
- **Burst hero:** Liliana (Queenie). Can't solo? Join a rally.

Trade Hubs: diamonds into power

Mon · Wed · Fri, 11:00 AT, one hour

- Holding a hub pays diamond tax envelopes to the alliance and unlocks a diamond shop
- Shop: hero fragments, badges, plug-in chests, steel, speedups, power cores
- Week 1 is state-only. Cross-state fighting starts week 2
- Our highest-value alliance objective all season

OUR PLAYBOOK

1. Troops staged before 11:00, not marching after
2. Roles set: rally leads, fillers, one hub manager
3. Rotate reinforcements. Snipes happen in the gaps
4. First 30–60 min: alliance-only shopping
5. Then open it to everyone. Their spending = our tax

Clash for Glory: alliance war

20%

of the loser's Season Points go to the winner

No refusal

a declared war can't be turned down

AC I

if Alliance Center I falls, we lose instantly

150K+

contribution needed for ranking rewards

WAR RULES FOR US

- Alliance Center I placed and garrisoned BEFORE the war starts (no AC I = instant defeat)
- Leaders set Truce Settings, or the third offered session is auto-picked
- We score by destroying enemy Alliance Centers and season buildings
- End-of-season Points Rush: loot rate rises from 20% to 25%. Peak war time

Dino Rescue + Dino Egg Defense

Dino Rescue (Sundays)

- Predator Squad reward limit rises from 2 to 5
- Squads and Guardians hit HQ durability directly, bypassing guards
- Black Market Guardian (up to Lv.350) is a rally boss. State-wide thresholds pay EVERYONE, so nobody holds back
- Send scouts to heal the rescued Spinosaurus: up to 10 gifts

Dino Egg Defense

- Waves hit every member's HQ. Leader and R4 each start it once
- Target: survive through round 23 (~900M wall defense was needed on one server)
- A breach takes 5% of your eggs (max 1,000), max 2 losses
- Completion beats ranking: a full clear pays 14 Golden Wrenches. Weak HQ? Reinforce a stronger member

Hatch of Legends + Fossil Album

Hatch of Legends

- **+1% Troop ATK per level,** +30% at Lv.30
- T-Rex, Triceratops, Ankylosaurus: same stats, pick the look you like. Locked in for the season
- Lv.6 hatches · Lv.11 adult · Lv.16 vehicle skin
- **5 daily tasks give feed.** Missed days don't come back
- Bonus and skin disappear at season end

Fossil Album

- 20 fossils: mostly from Sunday Ancient Dino (top 200) plus the weekend shop
- Every fossil, even duplicates, adds album points (milestones 30 to 300)
- Duplicates convert to Ancient Dino Eggs or go to the Exchange
- **Never skip a Sunday.** A missed boss leaves that set short until it rotates back

Bio Institute Shop: Saturday + Sunday

BUY IN THIS ORDER

1. **Exclusive equipment fragments**
   Hardest to get anywhere else
2. **Orange hero fragments**
   Core long-term progression
3. **Badges**
   Also from Glory Chests + Trade Hubs, so last

SHOP RULES

- Paid in Ancient Dino Eggs. Closed Mon–Fri
- Discounts up to −80%, fossil pieces included
- 14 refreshes per weekend; the cost climbs as you use them
- Farm eggs all week, arrive with a stockpile
- Scan the whole board before refreshing
- Don't burn 10 refreshes chasing one item

Specialization + season heroes

Specialization

- **Start in Support.** Build speed, more resources per kill, virus resistance
- **Switch to Combat** once Lv.60 dinos are comfortable (around mid-season)
- Combat 51–70 adds free teleport, instant rally launch and a 3rd Armory
- Economy players can stay Support all season

Wk 1–2 — **Licia (Yu Chan)**
Blood Rose · all-rounder, safe first pick

Wk 3–4 — **Liliana (Queenie)**
Wings of Dawn · burst, the Ancient Dino pick

Wk 5–6 — **Dodomeki (Amber)**
Guard of Order · sustained DPS, long fights

Stats are near-identical at Lv.175. Invest in the one you have the most fragments for. Passes rotate into fragments later, so no panic buying. Use Level Swap to move levels onto a new hero.

Spending smart (all optional)

Free players

- Bank diamonds for Trade Hubs
- Never miss Hatch tasks, Glory Chests or Sunday
- Hatch of Legends is the best free power in the season

1 **Wartime Investment ×4** $9.99 USD each
+100 virus resistance, +10% Fern Leaves, 5th Greenhouse, +30% march vs Raptors. Best value.

2 **Season Journey** $24.99 USD
Doubles every Glory Chest (about 444 → 900 badges/day). Buy early.

3 **Week-1 Fern / Scale packs** ~$10 USD
Jump-start only. Skip after week 1.

How our alliance ranks

Alliance Season Points =
every member's Personal Glory + city points

- **Every member's daily kills count.** Inactive members cost us rank
- **City points stay banked** even if we lose the city later
- Win Clash for Glory to take 20% of their points
- Glory rank itself pays nothing: aim for speed, not placement

Rank	Reward bracket
#1	Supreme Legion
#2–3	Dawn Army
#4–5	Glorious Pioneer
#6–10	Protection Oath
#11–20	Expeditionary Alliance
#21–50	Wasteland Legion
#51+	Wasteland Guardian

Alliance chests are handed out by the leader.

Do this, not that

DO

- Virus resistance before combat buildings
- Stegosaurus before Raptors
- Alarm for 11:55 AT every Sunday
- All 5 Hatch tasks, every day
- Open captured Trade Hubs after we shop
- Full damage on the Black Market Guardian

DON'T

- Rush Armory/Command Center in week 1
- Spend diamonds before Trade Hubs
- Log in late on Sunday
- Keep a captured hub locked all session
- Hold back hits to protect a rank
- Panic-refresh the Bio Shop

This week's orders

Sunday 11:55 AT
Online and parked for the Ancient Dino

Diamonds banked
Nothing spent before Trade Hubs

Biotech Lab first
Every Scale goes into resistance

5 Hatch tasks a day
Plus all 3 Glory Chests

AC I always protected
No AC I in war = instant loss

Show up for events
Trade Hubs, war, Rescue, Egg Defense

Heads up: check these in-game

This briefing is built from community guides (lastz.gg, lastzguides.com, note.com), not official patch notes. A few things differ between servers and regions:

- **Season number:** some guides call Dinosaur Origin Season 4. Same content
- **Hero names:** Licia / Liliana / Dodomeki = Yu Chan / Queenie / Amber. Match by faction icon
- **Bones & Eggs Boom:** most sources say eggs double with Scales; one says eggs drop 50%. Check your drops
- **Times:** Trade Hubs are listed as 11:00 AT (one source says 11:00 PM). Trust the in-game timer
- **Tuesday war name:** Glory War or Battle of Honor depending on source
